I recorded two videos with certain actions and used Label Studio to generate the corresponding "annotate.json" files.

Video 1:

1. Typed "Hello" in the search bar
2. Clicked "enter" to search
3. Clicked on a search result
4. Swiped down
5. Swiped up

Video 2:

1. Swiped down
2. Clicked on a content item
3. Swiped down
4. Swiped up
5. Clicked on the "back" icon
